Exclusive Signatures that Elevate Prestige

A Taste of Paris at the Airport: SEL is the only airport business lounge serving Maison Kayser pastries and breads — the legendary French brand crafted with 100% imported French ingredients and prepared by Parisian artisans.

Tea Heritage & Exclusive “Black Gold” Coffee: Guests may indulge in the refined aromas of **TWG Tea (Singapore)** and **Delingoo** – Capella premium coffee, iconic luxury selections exclusive to the Sun Group ecosystem.

Vietnamese Culinary Heritage by Artisan Ánh Tuyết: SEL proudly brings the soul of Vietnamese cuisine into the airport through the artistry of People’s Artisan Ánh Tuyết. From delicate bowls of traditional pho to sugarcane juice infused with pomelo blossom, each creation is presented as a “heritage of flavors” dedicated to distinguished guests.

Fresh Juice Bar: Refreshing tropical fruit juices crafted seasonally from carefully selected local ingredients, bringing fresh energy to every journey.

“SERVICE FROM THE HEART” – A COMMITMENT TO GENUINE HOSPITALITY

The final and most important touch lies in the people behind the experience.

At SEL, service is delivered with empathy, discretion, and refinement. Lounge associates are trained to embody the role of premium butlers — always present at the right moment while preserving absolute privacy for every guest, whether for business meetings or quiet moments of relaxation.

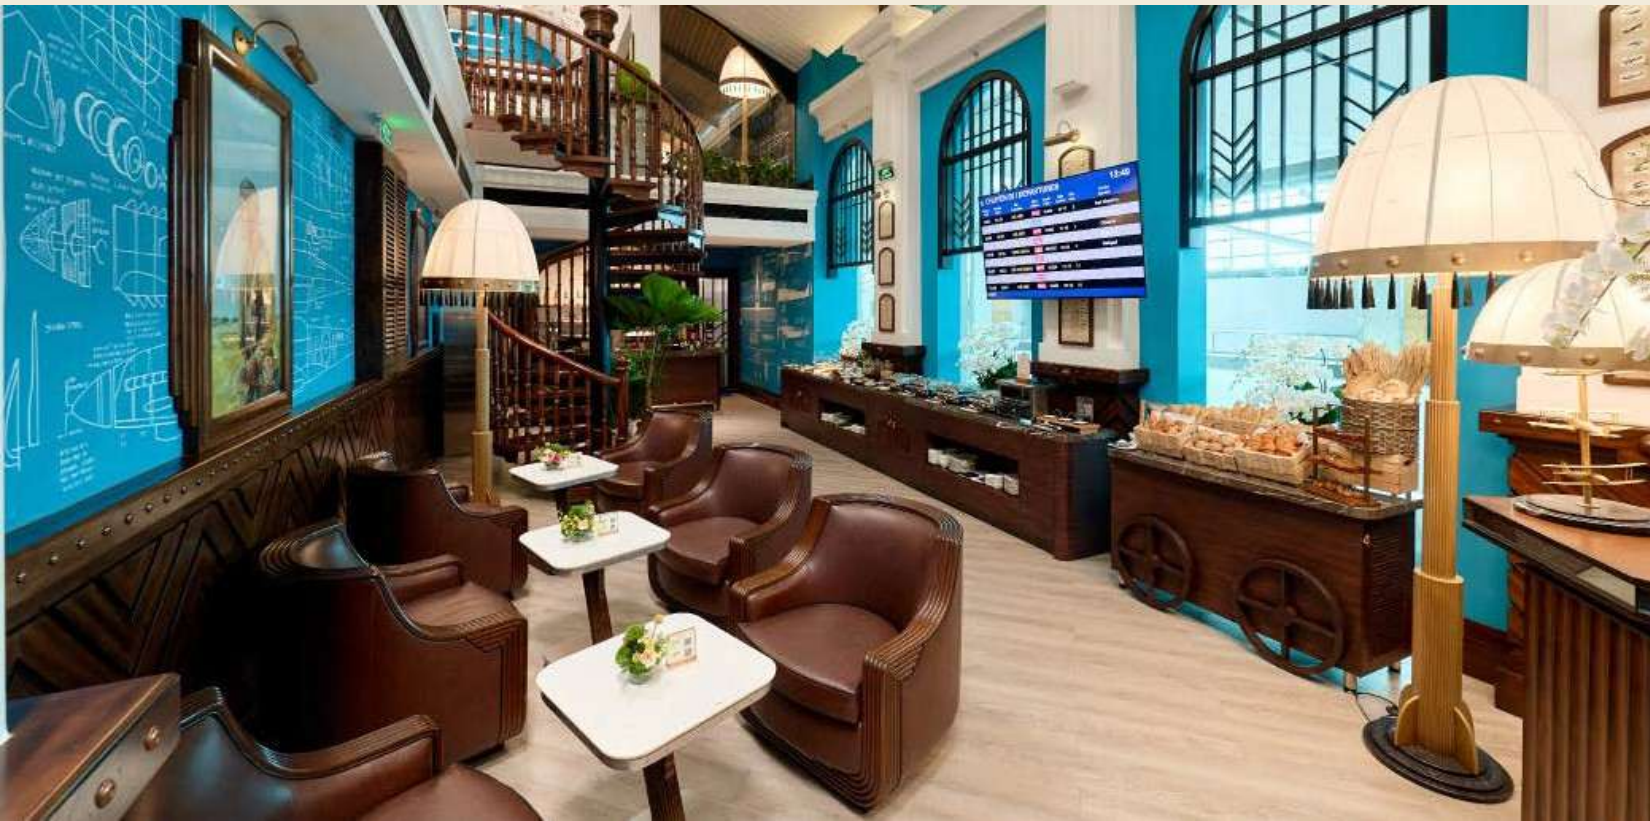

BUSINESS LOUNGE SUN EXECUTIVE LOUNGE - THE ART OF DEPARTURE

Partnership Model: Corporate partnership agreements for bulk lounge voucher distribution (from 100 non-personalized vouchers and above, valid for 06 months across both Domestic and International SEL locations).

The Art of Beginning Extraordinary Journeys

BESPOKE SPACES & ICONS OF LUXURY

The Sun Executive Lounge system is not merely a waiting area, but a “gallery of the senses,” where every detail is curated and endorsed by globally renowned names

Design Masterpieces – Where Architecture Tells a Story

Phu Quoc International Airport (Bensley Design): Located in both Domestic and International terminals, SEL is a heritage masterpiece created by the legendary “architectural wizard” Bill Bensley. Inspired by the concept of a classic aviation academy, the lounge invites guests on a nostalgic journey back to the golden age of air travel through rare and curated collectible artifacts.

Noi Bai International Airport:

SEL embraces a warm luxury aesthetic with expansive runway views, where natural light and contemporary architecture come together to soothe travelers before departure.
