DESTINATIONS AND NEWS

Becoming a carbon neutral company by 2050 is our commitment.

Within the "E - Environmental" that is part of our ESG goals, we are proud to be the first airline in Latin America to assume the audacious goal of neutralizing carbon emissions by 2050. The commitment is in line with the behavior maintained by GOL to think about a better, more accessible, and sustainable future for the Planet.

Changes to flights from May

Due to the worsening pandemic in Brazil, GOL flights will be changed in May, in order to guarantee the Health and Safety of our passengers who need to fly during this period.

Gol will always be in favor of the right to communicate diversity in Brazil.

Here in Brazil, bill PL504 was presented, which invokes the prohibition of advertising pieces that include LGBTQIA + people or homo-affective families. GOL will always be in favor of the right to communicate diversity in Brazil. Whether in our social networks or even in GOL Magazine, our spaces are always open to everyone. After all, it smart is to encourage love and not intolerance.

New schedule: International flights return in October.

Click on the link below and learn more about GOL's future international flight resumption.

GOL's Commitment

With Health and Safety

Processes for contagion contention and health guarantee certified by Albert Einstein Hospital.

With Empathy

Check the new and more flexible rules for rebooking, cancellation and refund.

With the resumption

Transforming how much you miss your loved ones in daily flights options, we keep expanding more and more our air network.

With Digital Transformation

Buy, anticipate or re-schedule your flight, check-in, all through our website or app.
