We just made marketing your business a breeze!

We know you're busy so it's not always easy to find time to create beautifully-designed social media posts or to craft the perfectly-worded email to boost sales.

That's why at Expedia TAAP, we have created the **Travel Agent Toolkit**, a collection of ready-to use marketing assets designed to help you increase your visibility and engagement with travelers and boost sales.

With the Travel Agent Toolkit you'll be able to:

- Easily market your business with editable campaign content, covering topics such as '*why book a vacation rental*' to '*why use a travel agent for domestic travel*'
- Save time and improve your online presence with over 40 pre-designed and customizable social media templates
- Super-charge your marketing skills with our marketing how-to guides.

The best part is you have unlimited access to the toolkit as an Expedia TAAP partner, so go ahead and take a look.
